

FOR THE Michigan ACE Initiative

Make an **IMPACT**: Implementing Measurable Programs to Address Childhood Trauma

MIACE is a statewide coalition of cross-sector partners committed to raising awareness of the prevalence and impact of ACEs on Michigan’s children and communities. With your support, MIACE can provide ACE-aware, trauma-informed training and education; develop and implement programs to foster protective factors; and build resilience among Michigan’s children who experience trauma and adversity. We are asking for Partner Contributions to support MIACE work and infrastructure.

We invite partners to become a Sustaining Partner to support MIACE and help us leverage the best available evidence, community strengths, diverse perspectives, and the collective expertise of our network. Learn how to use the MIACE framework to engage in the Initiative’s focus areas and make an impact.

MIACE Sustaining Partnership Opportunities

We have developed various partnership opportunities for 2024. Select Partners will be listed on the website and in the program book.
